

Summary Report on Skill Enhancement Activities

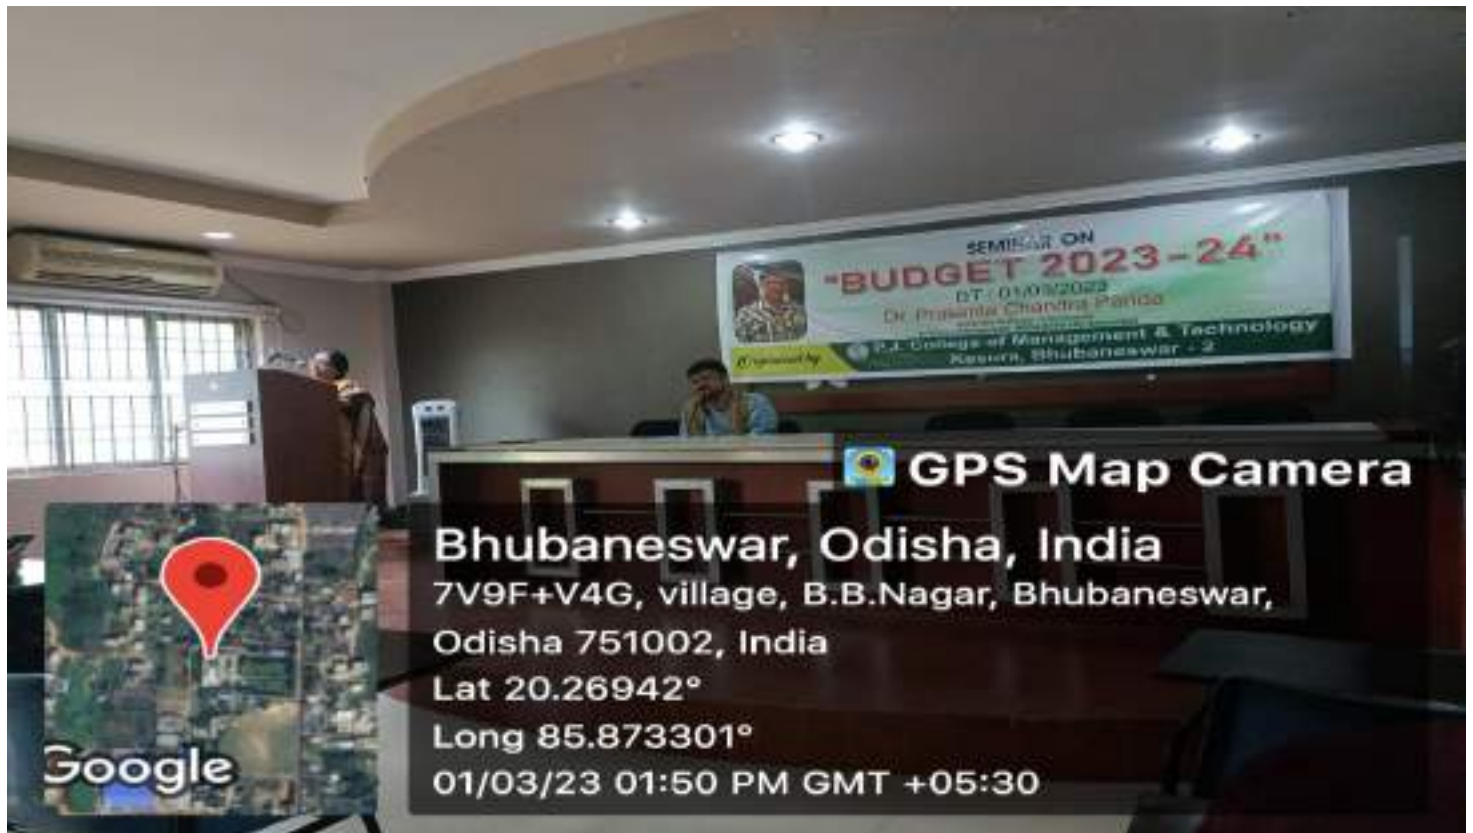

❖ For the academic year 2022-23

- **SEMINAR ON WEB 3.0 AND MODERN FINANCE**

Web 3.0 encompasses individual control of personal data and the use of crypto currencies and blockchain. Currently a work in progress, it is a vision of a decentralized and open web with greater utility for its users. In the panel discussion “How Will Web3 Shape Finance 2.0”, it is clear that the reduced cost, speed (think: instant settlement) and improved accessibility are a big win for financial inclusivity. Moreover, digital assets and the underlying block chain technology are giving rise to new asset classes. Decentralized finance or web3 in finance removes the involvement of financial intermediaries such as banks and brokerages and equips users with the following capabilities: lending and borrowing funds, trading crypto currencies, earning interest on savings. Realizing the above, a Seminar was organized by PJCMT in collaboration with **INCOBIST** company. The experts from the company discussed about the topic, where they emphasized on aims of Web 3.0 to expand Internet sources to be protected against possible hacks and leaks and reduce dependence on centralized data repositories. Own your data and digital footprints with certified data-free and tagged digital assets. In practice, there is no responsibility for the use of data on the platforms. The session was immediately followed with an interaction from the students.

the month of February. In Feb'2023 the budget for the financial year 2023-24 was passed by Honorable Finance Minister Mrs. Nirmla Sitharaman. PJCMT took an initiative to comprehend some of the major key points of **BUDGET, 2023-24** to the students and organized a seminar for the same. This seminar was chaired by the Director of PJCMT and **Dr. Prasanta Chandra Panda** was the chief speaker.

Mr. Panda discussed some of the major aspects of the Budget with the students and it was an interactive session. A total of 60 students participated in this seminar and had a clear idea about the topic by asking some of their doubts.

- **FIRST AID TRAINING PROGRAM**

A three-day **First Aid Training Program** was organized by PJCMT in association with **St. John Ambulance**, Odisha from **09.01.23 to 11.01.23** which was chaired by some dignitaries. This program was an initiative towards the enhancement of students' knowledge in the area of first aid services.

On the first day of training program, the students were instructed about various techniques that a first aider should use in case of any accidents or emergencies like **Thumb knot, Reef knot, multi-thumb knot, Chair knot, Clove hitch, Blow line, Draw hitch and various Bandage techniques.**

On the second and third day of training the resource person demonstrated on how to handle with victims in case of accidents or calamities. Firstly, they trained the students on how to give them first aid and take them to the hospital. They showed how to make human crutch like human cradle for light victim, two handed seat, three handed seat, four handed seat and chair lift. Secondly, they displayed various techniques to carry victims who are unconscious and how to make a stretcher with blanket or sack and two bamboo poles.

Total of 60 students participated in this training program and made it a grand success.

- **SELF ASSESSMENT AND DEVELOPMENT**

In order to understand own potentiality, the students need to assess themselves first. To throw light in this regard PJCMT organized a seminar on 24.08.22 in association with **First Track Solutions Technology Pvt. Ltd.** Mr. Panda was the chief speaker, he encouraged the students and boosted their morale through his words. It was an interactive session and the students were also instructed to raise their queries. A total of 60 students participated in this program and got the most out of it.

- For the academic year 2021-22

- **A WORKSHOP ON INTERVIEWING SKILLS**

Good interview skills and techniques help you match the best person to the right job and build a bright future for your organization. Poor hiring decisions are costly in terms of time, excessive recruiting costs, added training costs, poor performance and negative impact on good performers. PJCMT organized an Interviewing program on 11.12.21 in which the speaker was **Mrs. Snigdha Mohapatra** (Asst. Professor of MBA Dept.).

She created such an interactive atmosphere through her speech and discussed some frequently asked interview questions with the students. It was a fruitful session and it helped in boosting the morale of the students. A total of 60 students participated in this session.

- **COMMUNICATION & SKILL DEVELOPMENT**

Communication is a very important feature of all aspects of life. Every human being, regardless of occupation, responsibility, authority, station in life, age or gender needs to communicate. It is, therefore, necessary that we are able to communicate effectively. Communication is the activity of conveying meaningful information. Communication requires a sender, a message, and an intended recipient, although the receiver need not be present or aware of the sender's intent to communicate at the time of communication; thus communication can occur across vast distances in time and space. Communication requires that the communicating parties share an area of communicative commonality. The communication process is complete once the receiver has understood the message.

PJCMT understands this key aspect of life and tried to comprehend the same by conducting a **Communication & Skill Development** program on 01.12.2021. **Dr. Ipsita Patra (Asso. Professor and HOD of MBA Department)** was the speaker in this session and she addressed the students by discussing the role of communication in their life. It was a fruitful session and 60 participants benefited out of it.

- For the Academic year 2020-21

- PYTHON PROGRAMMING

Python is commonly used for developing websites and software, task automation, data analysis and data visualization. As it is a versatile and an in-demand language, most of the organizations prefer developers who know efficient use of this language. To strengthen the abilities of MCA students, PJCMT organized a session on PYTHON PROGRAMMING on 19.12.20. In this program **Mr. Tapas Ranjan Debata** (Asst. Professor of MCA Dept., PJCMT) discussed some of the important aspects of Python and stated its key roles in developing websites and software.

A total of 40 students were part of this program.

- For the Academic year 2019-20

- **INTERVIEWING**

Interviewing is a process where individuals learn how to attend interviews by providing proper guidance. In such programs the institution aims at making the students familiar with the interview scenario. Interview training ensures coordination and confidence of candidates during interviews. It enhances interview skills and consistency in interviewing. PJCMT understands this and organizes interviewing sessions at regular intervals. An interviewing session was organized in the college premises on 08.02.20. **Mr. Sitaram Padhy (Asst. Professor of MBA Dept.)** was the session expert. He created an interactive atmosphere and conducted a questionnaire round in the form of **Group Discussion** on a burning topic.

PJCMT's initiative for such important sessions is remarkable. Ultimately the students are getting benefit out of it. A total of 60 students attended the session.

- **COMMUNICATION & SKILL DEVELOPMENT**

Communication is the transmission of ideas and information with the purpose of better understanding one another. This can be done verbally (through dialogue), in writing (through texts, blogs, and magazines), graphically (through figures, charts, and layouts), or via non-verbal communication (body language, facial expressions, voice tone). The importance of communication skills can be seen at the workplace and in personal life and just about everything else in between. Communication skills are inevitably required to allow a free flow of information between oneself and others. On the other hand, a lot of confusion and frustration can ensue if communication breaks down.

Considering this importance PJCMT organized a program on Communication and skill development on 07.11.2019 in which the expert speaker was **Mr. Kashyapa Kanti Sahu (Asst. Professor of MCA Dept.)**. A total of 60 students were part of this program

- **SELF ASSESSMENT & DEVELOPMENT**

Assessment refers to the act of determining or estimating the value of something and making appropriate judgments on issues. It is used interchangeably with words like evaluation, examination etc. Similarly, self-assessment is the ability to examine yourself to find out how much progress you have made. It is a skill that helps individuals monitor their own work or abilities, find out what their weaknesses and strengths are, and self-diagnose relevant solutions. The purpose of self-assessment is to help the individual know the extent of his abilities and to improve upon them without the need of a performance appraiser. It involves the use of questions such as; what are my strengths; what are the obstacles, etc.

Self-Assessment helps students in understanding their personal strengths and weaknesses and taking measures to minimize them. As an institution PJCMT understands its role and therefore organized a Self-Assessment & Development program for the students on 17.08.2019. **Dr. Ipsita Patra** (Asst. Professor of MBA Dept.) was the expert speaker in this program and a total of 40 students participated in this program.

- **HEALTH AWARENESS PROGRAM**

Stay fit Stay Healthy

Yoga is a way to freedom. Yoga is the art of transformation. Yoga takes you into the present moment. The gift of learning to meditate is the greatest gift you can give yourself in this lifetime. True yoga is not about the shape of your body, but the shape of your life. Yoga is not to be performed; yoga is to be lived. Yoga will not only help them de-stress but also make them healthy. A **health awareness** programme “**Stay fit Stay healthy**” was organized on **6th to 8th April, 2019 in the PJCMT** playground and will continue every morning.
